The Fringe Festival was created as a post-World War II mission to reunite Europe through culture. Over the years its success has blossomed so that it attracts productions from all over the world, but its center of *uniting through culture* remains true. Due to its popularity, Edinburgh has attracted more festivals and each August five festivals converge in Edinburgh making it the largest cultural exchange in the world. During this two week course students will experience the finest performances of theater opera and music.

In addition to the art culture immersion, participants will explore one of the most beautiful vibrant cities in Europe: the castles, the palaces, the ports and the countryside.

Students will be required to read apropos course material and will attend designated class meetings prior to and during the trip. Students must be able to walk 2 miles unaided.

APPLICATIONS DUE 15 OCTOBER

TRIP COST \$3900

Apply today at: bit.ly/ScotlandTHEA or visit the Study Abroad Office in the DSU 180
